EDMONTON 7, ALBERTA OCTOBER 9, 1969

Special Convocation

Max Wyman was installed as President and Vice-Chancellor of the University at a special Convocation on October 6, 1969. The text of his address to the Convocation is being printed, and will be distributed with FOLIO next week.

Top photograph: Dr. Wyman. Middle: Dennis K. Yorath (member of the Board of Governors), Dr. Wyman, and F. T. Jenner (member of the University Senate).

Below: front row, from the left, Dr. MacEwan, Dr. Galbraith, Dr. Wyman, and Dr. Bradley; second row, Judge R. Belzil, W. A. S. Smith (President, The University of Lethbridge), J. W. T. Spinks (President, University of Saskatchewan), and Mr. Justice Andre M. Dechene; third row, H. T. Coutts (Dean of Education), G. M. Volkoff (of the University of British Columbia, representing National Research Council), J. T. Sample (Chairman, Department of Physics, representing the University of British Columbia).

THIRD ORIENTATION PROGRAM BEING PLANNED

Planning for the third Foreign Student Orientation is in progress, following the success of this year's program when over 100 students from overseas spent the week before registration getting acquainted with the more baffling aspects of Canadian life and meeting interested residents of Edmonton.

Our orientation program is probably the most extensive in Canada. It is planned and financed by the Foreign Student Office, the Graduate Students' Association, and the Students' Union. "We try to meet every new student arriving from overseas, help him find a place to stay, and give him a chance to settle down before plunging into university life," said R. C. W. HOOPER, Dean of Men and Foreign Student Adviser. Lectures, diagnostic English examinations, tours of the Edmonton area, and an International Dinner and Dance make up the four-day program.

A unique feature of the Alberta orientation program is a Foreign Student Handbook designed to supplement the information lectures. First produced this summer, the Handbook contains hints about Canadian laws, clothing, and tribal customs. A second edition is now being prepared.

Housing is a major problem facing the new arrival, and one recognized by the Orientation Program. Many students are forced to miss events while seeking accommodation. Departmental meetings have also tended to compete with Orientation activities. Despite these conflicts, response to the program has been enthusiastic, and ways to reduce the conflicts are being sought.

GENERAL FACULTY COUNCIL MINUTES

At the General Faculty Council meeting on September 29, the following topics were discussed:

ACQUISITION OF WORKS OF ART

In April, the Executive Committee of the Board of Governors received a recommendation from the *ad hoc* Centennial Sculpture Committee that it be discharged and that a broadly based standing committee be constituted to administer the Centennial Collection Fund. It was proposed that this committee would advise General Faculty Council and the Board of Governors on the acquisition and placement of works of art on the campus.

In July, the Executive Committee of General Faculty Council discussed the

following statement of policy adopted by the Board of Governors:

"That a prime cost sum in the amount of one-half of one per cent of the estimated cost of all academic capital projects on campus be included as part of, but not in addition to, the approved capital costs of the project for works of art.

Procedures

1. That the General Faculty Council Committee, when established, be charged with the responsibility of co-operating with the various prime consultants and building committees in the selection and placement of works of art in or about new buildings, with consultations to be undertaken early in the design phase of the project.
2. That specific definitions of the proposed works of art be included in the detailed proposal of the project to which they pertain."

The matter was discussed at length by the Executive Committee and it was requested that the phrase "works of art" be defined. It was also pointed out that the allotment of one-half of one per cent of the estimated cost of a building would not be in addition to what was to be spent, but rather a subtraction from what would otherwise have been spent. It was pointed out that the cost of building per square foot differed greatly—for a building containing many research laboratories, the amount of money provided for works of art would be greater than that for a building used primarily for teaching; opportunities for viewing works of art in a building were not related to the cost or size of it. As the committee was unable to reach a consensus on this policy, it referred the matter to General Faculty Council for discussion without recommendation.

When the matter was discussed by the Council, it was agreed to establish a committee with wide representation of the faculties and schools to review the matter and make recommendations to the Council.

PRIORITIES FOR CAPITAL BUILDING PROJECTS

The Council received the report of the University Planning Committee, which appeared in FOLIO on July 10, 1969, and set out the list of priorities for the construction of new buildings on the campus.

AMENDMENTS TO THE UNIVERSITIES ACT

It has been proposed that The Universities Act be amended at the next session of the Alberta Legislature, and the universities have been asked to make recommendations on what changes should be made. Some of

the proposed recommendations were discussed by the Council at its meeting.

The first of these recommendations was a series of amendments proposed by the Graduate Students' Association, giving that Association recognition parallel to that granted the Students' Union. As part of this proposal, the Association suggested that the membership of the Board of Governors be increased by one person, a graduate student to be nominated by the Graduate Students' Association.

Earlier this year the Universities Commission discussed a proposal that a Faculty of Environmental Design be established at The University of Alberta. This request was denied. The authority to make this decision is given to the Commission under Section 68(g) of The Universities Act, which was amended at the last session of the Legislature. The amendment was introduced without formal consultation with the universities of the province. Following this decision by the Commission, the Council asked the Executive Committee to discuss the role and procedures of the Universities Commission as these had been manifested in the Commission's decisions. The Executive Committee recommended to the Council that Section 68(g)(ii), which states that "The Universities Commission is empowered to regulate or prohibit the establishment of a new Faculty or School by a University," be deleted and that the matter be discussed further by the Universities Commission, the three universities, and other interested parties. This recommendation was endorsed by the Council.

These proposed changes have now been sent to the Board of Governors for its consideration.

All changes to The Universities Act proposed by the three universities are sent to the Universities Commission which acts as a clearing house and informs the other universities of changes proposed. A meeting of representatives of the three universities and the Commission was held in Calgary on Thursday, September 25, to discuss the changes already proposed. All these proposed amendments will be sent to the University; the General Faculty Council agreed to establish a special committee to discuss the amendments and to make recommendations to a special meeting of General Faculty Council. This *ad hoc* committee will be established by the Executive Committee on behalf of the Council.

PRE-SESSION STUDY FOR THE SUMMER SESSION

The Council received the following recommendation from the Summer Session and Evening Credit Program Committee:

"That the general requirement of pre-session study for all Summer Session courses be eliminated; that in the event a Department may require pre-session study for a given course, it administer the necessary arrangements; that the Summer Session timetable provide the same amount of instructional time as is available for comparable courses in the regular session; that early registration be retained; and that departments be urged to prescribe texts and make appropriate assignments before the start of Summer Session."

The effect of this proposal would be to make pre-session study optional for departments; where a department felt it necessary, it would be asked to arrange pre-session study itself. To make up for the elimination of pre-session study, instructional periods in the Summer Session would be increased to give the same instructional time for a course as that provided in the regular session.

EDUCATIONAL PLANNING COMMISSION APPOINTMENTS

At a press conference on Monday, September 29, WALTER H. WORTH, Commissioner of the Alberta Commission on Educational Planning, and formerly Vice-President for Campus Planning and Development, announced the names of appointees to the executive staff of the Commission. Those appointed will serve on a Co-ordinating Committee. They will assist in the development and implementation of policies and procedures of the Commission throughout its work and each member will also serve in a liaison-leadership role in a particular area or with a particular group.

All appointees have been seconded from their present positions and will contribute one-quarter to one-half of their time to the Commission.

Appointments to the Committee include ALLAN R. STEIN, President of the Alberta Association of Students, who will be responsible for arranging for student participation in the work of the Commission; W. A. S. SMITH, President of The University of Lethbridge, who will co-ordinate planning in the field of post secondary education; MICHAEL B. O'BYRNE, Justice of the Supreme Court of Alberta, who will involve local units of government; HENRY KOLESAR, Chairman of the Alberta Colleges Commission, who will facilitate the participation of provincial government departments or agencies; B. T. KEELER, Executive Secretary of the Alberta Teachers' Association, who will arrange for the involvement of school personnel; and L. W. DOWNEY of Edmonton, Director of the Alberta Human Resources Research Council, who

will co-ordinate research efforts of the Commission and the Council.

The Commission is concerned with the total educational enterprise—all levels and all aspects. Its orientation will be futuristic, and it will make projections. "It will use the past and the present to illuminate the future," Dr. Worth said.

The Commission's broad scope and futuristic orientation make it unique in Canada and perhaps in North America and the world, Dr. Worth noted.

PEOPLE

At the request of the Government of Alberta, LESLIE GREEN, University Professor, has prepared a paper on "Canada's Indians—Federal Policy, International and Constitutional Law." The paper is a background study commenting on the federal government White Paper on Indian Policy and not a policy statement by the Government of Alberta. The paper, which has been the subject of much public interest, will be published by the Queen's Printer for Alberta in approximately two weeks.

RONALD T. COUTTS, Professor of Pharmacy and Pharmaceutical Sciences, served on a committee which met recently in Ottawa to review the research program of the Pharmaceutical Chemistry Division of the Food and Drug Directorate.

WOLFGANG M. SCHULTZ, Associate Professor of Agricultural Economics, has been elected chairman of the Water Centre Committee; ALAN W. PETERSON, Associate Professor of Civil Engineering, has been elected Secretary of the Committee. The Water Centre Committee was established in 1967 to strengthen intra-university co-operation in water resources research.

MURRAY H. HAWKINS, Associate Professor of Agricultural Economics, has been elected to the Executive Council of the Canadian Agricultural Economics Society.

From May to August, L. PETER APEDAILE, Associate Professor of Agricultural Economics, served as a Research Fellow of the Societe d'Etudes de Developpement Economique et Social and the Institut National de Recherche Agronomique a Paris. His research on the Sixth National Five-Year Plan of France was sponsored by the French Ministry of External Affairs under a technical co-operation agreement between France and Canada.

MAHMET N. OGUZTORELLI, Professor of Mathematics, visited Rumania and the Soviet Union from August 31 to September 19. During his stay in Russia, Dr. Oguztorelli visited Leningrad, Moscow, Kiev, and Tiflis, where he attended the All Union

Conference on Optimal Control and Minimal Surfaces, presenting a paper on "The Existence of Optimal Policies in Distributed Parameter Control."

RUTH E. MCCLURE, Director of the School of Nursing, has been invited to act as a representative of the University at the joint meeting of the Department of National Health and Welfare and Association of Universities and Colleges of Canada, to be held in Ottawa from October 7 to 10. The objective of the conference is to seek guidelines for planning the delivery of comprehensive health services during the next decade and the education of health manpower required for the delivery of these services.

GEORGE FORD, Chairman of the Department of Mechanical Engineering, has been appointed to the Steering Committee for the formation of the Canadian Society of Mechanical Engineering. The CSME will form a constituent society of the Engineering Institute of Canada. The idea of constituent societies within the framework of the Institute is being developed to provide a cohesive and co-ordinated structure of technical societies to represent and disseminate the various technologies, both nationally and internationally.

Dr. Ford has also been chosen as the annual branch speaker for the Association of Professional Engineers of Alberta. This is an honor bestowed on senior members of the Association of Professional Engineers, and involves a speaking tour throughout the province at eight to ten selected centres. Dr. Ford's theme will be on "What is Meant by Professionalism?"

Dr. Ford was recently appointed chairman of the National Research Council Sub-Committee on High Performance Composites.

K. J. HUTCHISON has joined the Department of Physiology as Associate Professor. Dr. Hutchison is a cardio vascular physiologist with a particular interest in clinical psychology. His major interests will be in the regulation of circulation in man and in the physiological analysis of the mechanism of contraction and relaxation of vascular smooth muscles.

GERARD V. LA FOREST, Dean of Law, spoke to the Atlantic Water Seminar sponsored by the Canadian Council of Resource Ministers on September 23 at Fredericton. His topic was "Perspectives of the Lawyer Respecting Water Resources."

DONALD N. THOMPSON, Associate Professor of Business Administration and Commerce, presented two invited papers at the 1969 Fall Educators' Conference of the American Marketing Association in Cincinnati from

August 25 to 29. "Franchising: A Public Policy Dilemma," was presented jointly with JAN B. LUYTJES of the University of Kentucky, and "Some New Developments in Public Policy in Marketing" was presented jointly with JOHN C. NARVER of the University of Washington.

D. R. CAMERON, Professor of Educational Psychology and Director of the Centre for the Study of Mental Retardation, participated in a national symposium on mental retardation sponsored by the Canadian Association for the Mentally Retarded (CAMR) in London, Ontario, from September 24 to 28. The symposium dealt with programs and services for the intellectually subnormal, including plans for the further development of 13 CAMR-sponsored research and demonstration centres across Canada.

ALLAN BERGER, Associate Professor of Elementary Education, has an article, "Are Machines Needed to Increase Reading Rate?" in the August, 1969, issue of *Educational Technology*.

At the Conference of Regional and District Supervisors in Moncton, New Brunswick, MYER HOROWITZ, Chairman of the Department of Elementary Education, delivered the keynote address on "The Changing Role of the Supervisor."

DOUGLAS V. PARKER, Associate Professor of Secondary Education, assisted by GLORIA SAMPSON, Sessional Lecturer, presented a workshop in the Teaching of English as a Second Language to teachers representing various Edmonton organizations involved in such programs, on September 13.

G. W. SADLER, Associate Professor of Mechanical Engineering, was an invited speaker at a meeting of the Northern Alberta chapter of the American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE) held on September 10 to commemorate the 75th anniversary of the society. Dr. Sadler's talk was entitled "Progress at the Northern Alberta Chapter."

J. B. REDFORD, Director of the School of Rehabilitation Medicine, addressed a seminar on "Explorations of the Royal Alexandra Hospital Philosophy, Aims, and Objectives," on September 29. His address was titled "The Future Role of the Active Treatment Hospital in Relation to Rehabilitation and Home Care."

K. H. GOUGH, Chairman of the Division of Speech Pathology and Audiology in the School of Rehabilitation Medicine, addressed the Annual Meeting of the Speech and Hearing Association of Alberta on October 4 in Calgary. Dr. Gough's topic was "New Directions in the Training of Speech Pathologists and Audiologists," a presentation

of the philosophies, objectives, and goals of the new program in Speech Pathology and Audiology.

VISITORS

A recent visitor to the School of Nursing was LORETTA C. FORD, Professor of Public Health Nursing at the University of Colorado. Dr. Ford was in Edmonton to conduct a workshop on "Clinical Expertise in Public Health Nursing Practice" under the auspices of the School of Nursing, the Provincial Department of Public Health, and the Department of Extension.

LEE LORCH, formerly Professor of Mathematics and now a member of the Department of Mathematics at York University, visited the Department of Mathematics on October 9 and 10. He spoke on " $\{J, f(x)\}$ Summation of Fourier Series."

DONALD M. CUNNINGHAM of the Department of Mechanical Engineering at the University of California at Berkeley, has been appointed Visiting Research Professor in the Department of Mechanical Engineering. Dr. Cunningham's experience is in the field of design and experimental stress analysis. At present, he is working on the application of a ballistocardiograph in the field of cardiovascular dynamics.

D. MANGERON of the Jassy University, Jassy, Rumania, will arrive shortly to spend a year as Visiting Professor in the Department of Mathematics. His main interests include functional differential equations, optimal control theory, and analytical mechanics. At Jassy University, Dr. Mangeron holds the rare academic rank of Professor of Mechanics.

M. SCHECTER of the Faculty of Industrial and Management Engineering, Technion—Israel Institute of Technology in Haifa, was Visiting Professor in the Department of Agricultural Economics and Rural Sociology during September. Dr. Schecter presented a seminar in the Department of Economics on September 19 on "The Dynamic Planning of Investment Projects," and a second seminar on September 23 in the Department of Agricultural Economics and Rural Sociology on "A Decision Model for Development of Outdoor Recreation Facilities." Dr. Schecter is collaborating with H. C. LOVE, Professor of Agricultural Economics and Rural Sociology, on a research project.

BOOKS

J. P. DAS, Associate Professor of Educational Psychology and member of the Centre for the Study of Mental Retardation, is the author of *Verbal Conditioning and Behavior*, published by Pergamon Press in September.

Basically, the work is a monograph treating on selected areas of complex verbal behavior, with empirical findings interpreted within the general context of conditioning theory.

Creative Dance in the First Three Grades, by JOYCE L. BOORMAN, Lecturer in Physical Education, has been published by Longmans of Canada. The book gives practical information to the teacher in terms immediately understandable for the novice but useful to the experienced teacher.

Natural Resources and Public Property Under the Canadian Constitution, by GERARD V. LA FOREST, Dean of Law, has been published by the University of Toronto Press. The book includes a series of lectures on the provision of the British North America Act and other constitutional instruments relating to natural resources and public property, given to doctoral students at the Faculté de droit of the Université de Montréal.

RONALD AYLING, Post-Doctoral Fellow in the Department of English, is the editor of *Sean O'Casey: Modern Judgements*, published by Macmillan and Company, Limited, of London in March, 1969. This is a collection of critical essays, some reprinted and some specially commissioned, on all aspects of O'Casey's work. Contributors include Bonamy Dobree, Padraic Colum, Hugh McDermid, and Jack Lindsay; there is a long introductory essay by the editor. The book has been favorably reviewed by the *Times Literary Supplement*, the *Irish Times*, *Hibernia*, and the *Irish Democrat*.

NOTICES

UNIVERSITY CALENDAR

The "composite" *University Calendar* is now being distributed. Members of the staff who discover errors in it are invited to send a written correction to A. L. DARLING, Assistant to the Registrar, so that the error will not be repeated in future Calendars.

GFC COMMITTEE ON DISCIPLINE, LAW, AND ORDER

The General Faculty Council Committee on Discipline, Law, and Order on the Campus has written the Presidents of the Association of Academic Staff at The University of Alberta, the Students' Union, and the Graduate Students' Association, asking them to invite their members to make submissions respecting any matter falling within the Committee's terms of reference.

In the near future, relevant material, including the existing disciplinary regulations, a draft interim report of the Committee, and a draft of proposed regulations respecting procedure for disciplinary hearings, will be published in FOLIO to assist any

person interested in focusing on the problems involved.

In addition to inviting written submissions, the Committee will be making arrangements to receive oral submissions at an open meeting or meetings to be held shortly after the publication of the relevant material in FOLIO.

TRAFFIC RESTRICTIONS

Starting October 6 and continuing for approximately three weeks, traffic will be restricted on 114 Street between 83 Avenue and 87 Avenue. A water main is being installed on 114 Street.

ART EXHIBITS

The second in a series of six one-man shows, an exhibition of paintings by VIRGIL HAMMOCK, Assistant Professor of Art, opened in the Students' Union Art Gallery on October 6. Mr. Hammock moved to Edmonton in July, 1967, from the United States. Since then he has been active in promoting all the arts in Edmonton. At present, he is the art critic for *The Edmonton Journal*, and hosts a weekly program on CKUA radio, dealing with the visual arts. He sits on the Board of the Edmonton Film Society, and, as Director of the University Art Gallery and Museum, he is a member of the Executive of the Western Canada Art Association.

The Centennial Suite, a collection of graphic works by British Columbia artists, will be shown concurrently with the Hammock exhibition. The Suite was commissioned by Simon Fraser University Centre for Communication. Included in the Suite are works by TONY ONLY, IAN BAXTOR, and MICHAEL MORRIS. This particular edition of the Suite is owned and lent to the Students' Union Art Gallery by the Edmonton Art Gallery.

REAL ESTATE RESEARCH ASSISTANCE

Applications for assistance with real estate research are now being solicited by the Research Committee of the Department of Extension. Funds are available for research in the field of real estate, its markets, development, taxation, or governmental, social, or economic relations. Ordinarily assistance will be limited to \$5,000,000 per project, and disbursements may be limited to direct payment for specified equipment, supplies, or services.

The Research Committee reserves the right to accept or reject applications at its sole discretion. Conditions as to use of funds, disbursement of funds, and reports on progress may be attached by the Committee

on the first grant or any subsequent extension.

Where possible, a copy of the technical report of the research will be wanted for the Committee's files and, with the report, the Committee receives the right to explain and publicize the work. No exclusive publication rights or copyright in the work itself are to be assumed by the Committee.

Research funds have been made available by the Alberta Real Estate Association to further research in real estate problems.

Detailed information and application forms are available from D. A. BANCROFT, Chairman of the Research Committee, Department of Extension.

SEMINARS, COLLOQUIA, AND LECTURES

DATE	DEPARTMENT	SPEAKER
September 15	Computing Science	C. H. A. KOSTER, Mathematisch Centrum, Amsterdam
September 23	Mathematics	HANS J. ZASSENHAUS, Ohio State University
September 25	Computing Science	SALLY Y. SEDELOW, Department of Computer and Information Science, University of North Carolina
October 2	Mathematics	PAUL WALTMAN, Courant Institute of Mathematical Sciences
October 6	Biochemistry	P. D. BOYER, Molecular Biology Institute, UCLA
October 9	Mathematics	S. G. GHURYE
October 9	Mathematics	LEE LORCH, Department of Mathematics, York University

COMING EVENTS

GUILES LECTURE

Playwright and biographer FRED GUILES, author of *Norma Jean*, the biography of Marilyn Monroe, will deliver a public lecture on Thursday, October 16, in the Students'

Union Building Theatre. Mr. Guiles, who is now engaged in writing the biography of Marion Davies, will speak on his own work and the problems of biographers in general. On the morning of Friday, October 17, he will hold a seminar in the Department of Drama, and in the afternoon, a seminar in the Department of English.

PHILOSOPHY LECTURE

R. M. CHISHOLM of Brown University, America's leading philosopher in the theory of knowledge, will address the Philosophy Club at 4 p.m., Wednesday, October 15 in Room 13-15 of the Henry Marshall Tory Building. Dr. Chisholm's topic will be "Beyond Being and Non-being: a Defense of Meinong." Visitors are welcome.

During the weekend of October 17 to 19, the Western Canadian Philosophical Association annual meetings will be held at Calgary and Banff. At the meetings, Dr. Chisholm will speak on "Events"; WILLIAM EASTMAN, Associate Professor of Philosophy, and JOHN KING-FARLOW, Associate Professor of Philosophy, will present a symposium on "Wittgenstein's Primitive Languages." Those interested in attending the symposium should contact MRS. P. BRUNEL, in the office of the Department of Philosophy.

DEPARTMENT OF MUSIC CONCERTS

Three free public concerts will be presented in Convocation Hall during October.

On Sunday, October 12, at 8:30 p.m., ERNESTO LEJANO, Assistant Professor of Music, and MARY COCKELL will present a violin and piano recital.

On Friday, October 17 at 8:30 p.m., the newly-formed St. Cecilia Chamber Orchestra of the Department of Music, conducted by MICHAEL BOWIE, Assistant Professor of Music, will present the first of a series of concerts.

On Sunday, October 19, at 8:30 p.m., HAIMUT BRAUSS, Associate Professor of Music, will present a piano recital.

LECTURES

GEORGE R. WINTER, Chairman of the Department of Agricultural Economics at the University of British Columbia, will give a public lecture on "Some Positive Suggestions for the Wheat Economy," on Monday, October 20 at 8:30 p.m. in Room 87 of the Henry Marshall Tory Building.

BASIL GORDON of the University of California at Los Angeles will address the regular weekly colloquium at the Department of Mathematics on October 16 at 4 p.m. in Room 262 of Campus Towers. His talk will be titled "Group Representations and Algebraic Number Fields."

The Department of Computing Science has five colloquia arranged for the latter

part of October. On Wednesday, October 15, G. F. DEEKER of the Department of Computing Science will speak on "Computer Graphics and Campus Planning: A Problem of Map Storage and Retrieval"; on Monday, October 20, J. J. RUSSELL of the Division of Computer Research, Commonwealth Scientific and Industrial Research Organization of Canberra, Australia, will speak on "Operating Systems for a Nation-wide Computer Service"; on Wednesday, October 22, BARRY J. MAILLOUX, Assistant Professor of Computing Science, will speak on "The Syntactic Monkey—or How to Climb Trees"; on Monday, October 27, URSULA VON MAYDELL, Assistant Professor of Computing Science, will speak on "Some Queueing Models of Computer Systems"; and on Wednesday, October 29, J. G. STASIUK of the Computing Centre will speak on "The Next Year with OS."

PIANO RECITAL

MICHAEL MASSEY, a Bachelor of Music graduate from the Department of Music who has recently returned from two years of study in Geneva, will present a piano recital on Tuesday, October 28 at 8:30 p.m. in Convocation Hall. Admission is free and the public is invited to attend.

OPERA ON TELEVISION

On Wednesday, October 29, "Louis Riel," an opera by HARRY SOMERS, will be shown on CBX-TV, with BERNARD TURGEON, Canadian baritone, in the leading role. Mr. Turgeon has recently been appointed to the staff of the Department of Music.

MASQUERADE BALL

The Royal Overseas League will sponsor a "Madame de Pompadour" masquerade ball in Lister Hall on November 14. Dress will be period costume or formal with a mask.

The ball will begin at 8:30 p.m. and end at 1:30 a.m., and will include cocktails, dancing, and supper. Tickets are \$25 per couple.

Reservations may be made with MRS. M. N. SPECTOR, 488-5555.

WRESTLING INSTRUCTORS' WORKSHOP

To give greater significance to the selection of Edmonton as the site of the 1970 World Amateur Wrestling Championships, the Alberta Amateur Wrestling Association and the Recreation Branch of the Alberta Department of Youth will sponsor a three-day instructors' workshop at the University from October 11 to 15.

The purpose of the workshop will be to prepare a core of competent amateur wrestling instructors who will return to their communities and organize wrestling clinics to train other coaches and officials. The program will cover all phases of wrestling, and applicants will be selected on a province-wide basis.

DWIGHT GANSKE, Athletic Consultant with the Recreation Branch, is in charge of registration and applications, and further questions should be directed to him at the Recreation Branch, Department of Youth, Main Floor, C. N. Tower.

HOME ECONOMICS TODAY

"What is New in Nutrition?" a refresher course for persons holding a B.Sc. in Household Economics or a B.Ed. with a household economics major, has been scheduled to begin October 22. The course, arranged by the Edmonton Home Economics Association, the School of Household Economics, and the Department of Extension, will consist of eight evening lectures. It has been designed to give graduates up-to-date information on research, recent developments, and current trends in nutrition.

Among the topics to be discussed are the role of fats in nutrition, diet for heart patients, nutrient requirements and factors affecting them, naturally occurring toxicants in foods, regulation of food intake, and nutritional status. Instructors include ELIZABETH EMPEY, Director of the School of Household Economics; ELIZABETH DONALD,

Associate Professor of Household Economics; MARGARET GEE, Sessional Lecturer; RUTH RENNER, Associate Professor of Household Economics; and MICHAEL STILES, Associate Professor of Household Economics.

Class hours will be from 8 to 9:30 p.m. The fee is \$15 and registrations will be accepted at the Department of Extension.

POETRY CONFERENCE

A Conference on Canadian Poetry is being organized by the Departments of English and Romance Languages for November 20 and 22. The conference is sponsored by The University of Alberta, the Cultural Affairs Branch of the Province of Alberta, the Canada Council and the Ministry of Cultural Affairs of the Province of Quebec. Papers and readings will be presented in both French and English.

Further information may be obtained from RUDY WIEBE, Assistant Professor of English, or BRYAN G. DOBBS, Assistant Professor of Romance Languages.

PERSONAL NOTICES

Staff members may forward notices to reach the Editor by 9 a.m. the Friday prior to publication. They must be typed, and not exceed 35 words including heading. Advertisements received will be published at the Editor's discretion.

FOR SALE—Four-room lakeshore cottage at Hastings Lake. Large stone fireplace. On one acre of land, on north shore. \$4,500. Local 3449, or 439-8354.

FOR RENT—Large, furnished three-bedroom self-contained flat in Oxford. Available for short or long term lease. Contact Sir Owen O'Malley, 27 Charlbury Road, Oxford, England.

WANTED TO RENT—Desperately needed—furnished four or five-bedroom house close to the campus. Needed from December or January to October 31, 1970. Rent to \$300. H. M. Goldberg, local 4640.

FOR SALE—Academic gown and mortar board. English made, as new. 432-4641.

FOR SALE—1968 Mercury Parklane Sedan. Dark blue. 16,000 miles. Fully equipped. D. C. Fair, local 4769, or 434-5480.

FOR SALE—1966 Chevelle station wagon. Automatic transmission. Under 15,000 miles. Safety checked. Local 5303, or 433-5601.
